UCSF May Submit 1 Application

PLEASE FORWARD THIS ANNOUNCEMENT TO ALL APPROPRIATE FACULTY AND RESEARCH ADMINISTRATORS

REQUEST FOR APPLICATIONS NUMBER: PAR-17-340

PURPOSE:
• To support highly integrated research teams of three to six PD/PIs to address ambitious and challenging research questions that are important for the mission of NIGMS and are beyond the scope of one or two investigators
• Teams are encouraged to consider far-reaching objectives that will produce major advances in their fields

ELIGIBILITY:
• The application is required to be submitted as a multiple PD/PI application, with a minimum of 3 and a maximum of 6 PD/PIs
  o NIGMS encourages the participation of junior, early, and mid-career investigators as part of the multiple PD/PI team, with advising as appropriate.
  o ESIs and new investigators who participate as PD/PIs will lose their early stage status for future NIH applications, but ESI leads of pilot studies will not lose ESI status.
  o PD/PIs who have an active NIGMS R35 award can participate as PD/PIs as part of the 51% effort on their current R35 award but may not receive additional funds from this award.
  o Applicants with substantial unrestricted research support may receive funding from this award as their one NIGMS grant award, or may participate in an unfunded advisory or consulting role without loss of their ability to receive one funded NIGMS grant, consistent with NIGMS policies.

BUDGET AND PROJECT PERIOD:
• Award Budget: Applications may request research program budgets of up to $1.5 million direct costs per year, it is anticipated that most awards will be between $700,000-$900,000 direct costs.
  o In addition to the research program budget, an additional $250,000 direct costs per year may be requested for optional exploratory pilot studies for ESI
  o UCSF indirect cost policy will apply except for non-federal entities.
• Project Period: limited to 5 years
