The Network includes three national centers:
  o Implementation and Change Center (ICC) will support state/territory EHDI programs using implementation science and change management methods to improve the EHDI system of services.
  o Family Leadership in Language and Learning Center (FL3) will increase state capacity for family-to-family support, develop family leadership skills, and engage DHH adults as mentors to families across state/territory EHDI programs and other EHDI system stakeholders.
  o Provider Education Center (PEC) will improve confidence and training for health care and allied service professionals who screen, diagnose, and provide services to infants, children, and families interacting with the EHDI system.

• Objectives for the EHDI National Network measure technical assistance and support to state/territory EHDI programs. The Individual Centers provide support around: implementation to meet state/territory benchmarks, family support, and provider education.
