UCSF May Submit 3 Applications

Internal Deadline: NOON, Monday, July 08, 2024

PLEASE FORWARD THIS ANNOUNCEMENT TO ALL APPROPRIATE FACULTY AND RESEARCH ADMINISTRATORS

WHAT: The G. Harold & Leila Y. Mathers Foundation Grants Program (https://mathersfoundation.org/)

PURPOSE:

• To support basic science, ideally with potential translational applications.
• Fields of interest include but are not limited to immunology, microbiome, genomics, structural biology, cellular physiology, cancer biology, genetics, microbiology and infectious diseases, stem cell biology, and neuroscience.
• Research areas we will not consider for support include Covid-19 related research projects (aims or sub-aims), Plant Biology Research, Oceanography, Space Exploration, and Global Warming related research. In addition, medical imaging technology related projects and/or electrical engineering technology development projects will not be considered for support.
• The Foundation does not support research conducted in human subjects and will not fund requests for clinical trials or drug discovery. The Foundation will not support research projects which we consider pre-clinical drug development.
• Renewal applications for the same or related research will not be accorded priority consideration. It is strongly advised that any re-application for grant renewal consider a new direction based on prior research or emphasize some new potential translational aspects and not merely an extension of previously funded research.
• Requests for funding previously federally supported research and/or applications pending federal approval will not be accorded priority consideration.

ELIGIBILITY:

• Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with their organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply.

BUDGET AND PROJECT PERIOD:

• Award Budget:
  o Up to $700,000 total costs
  o Most awards should be no more than $600,000 to $700,000 (including indirect costs)
  o Indirect costs may not exceed 10%
• Project Period: 3 years

NUMBER OF APPLICATIONS UCSF MAY SUBMIT: 3

APPLICATION TYPES ALLOWED: New

DUE DATES:

• Internal: NOON, Monday, July 08, 2024
• PIs submit directly to the LSP; RMS does not get involved unless and until you are nominated.
• Sponsor LOI: Friday, October 04, 2024
• Sponsor Application (if invited): Friday, December 06, 2024

Submit the following in ONE PDF file by NOON, Monday, July 08, 2024, to: limitedsubmissions@ucsf.edu

1. Limited Submission Pre-proposal Cover Sheet with signatures (form attached to email)
2. Project Summary (1-pg. max, excluding references)
3. NIH Bio-sketch (5-pg. max., including publications) (https://grants.nih.gov/grants/forms/biosketch.htm)
4. One Letter of Support from Department Chair or Division Chief addressing:
   a. Availability of time, space, and resources
   b. Applicant’s qualifications

To qualify for UCSF Limited Submissions Program opportunities, applicants must have a paid UCSF appointment either at the time of application or anticipated by the time of award.

The LSP is a selection process, not an award process. As the LSP is under significant time constraints, all reviewer feedback is optional. We encourage you to seek other avenues for proposal feedback.

For information on all current LSOs, please visit: http://rdo.ucsf.edu/limited-submission-program-lsp

Sent by Amanda Yu on behalf of the Limited Submissions Program (LSP) within the Research Development Office (RDO).
