UCSF May Submit 1 Application

Internal Deadline: 11:59 PM, Friday, June 16, 2023

PLEASE FORWARD THIS ANNOUNCEMENT TO ALL APPROPRIATE FACULTY AND RESEARCH ADMINISTRATORS

REQUEST FOR APPLICATIONS NUMBER: PAR-23-151

PURPOSE:

- To support a national program of mentored research career development for junior emergency medicine faculty that support emergency medicine physicians to conduct research.
- To expand the cadre of emergency medicine investigators trained to conduct research into neurological disorders, which makes use of their expertise associated with their clinical experience as emergency medicine clinicians.
- Scholars funded by the EMRCDP-NS K12 must be conducting research that falls within the NINDS, NIDA or NIA mission. All types of research, including basic, clinical and translational, are equally appropriate. Regardless of research type, it should be directly relevant to diseases or disorders of the nervous system and be potentially applicable to clinical practice.

ELIGIBILITY:

- The PD/PI(s) of the EMRCDP-NS should possess the scientific expertise, demonstrated leadership capabilities, stature and administrative capabilities required to implement, coordinate and supervise a national, multidisciplinary research career development program for EM clinicians. The PD/PI(s), together with the NAC and, if applicable, co-directors, will be responsible for the selection and appointment of scholars to the EMRCDP-NS, and for the overall direction, management, administration, and evaluation of the program.
- Any PD/PI who has overseen an NIH institutional training program in the past (e.g., T32, K12, etc.) should have a strong outcome record from that program, which would include trainees and scholars achieving individual NIH funding, subsequent placement into positions that provide strong research support and the launching of a research program that includes rigorous experimental approaches to address a significant scientific question.
- All individuals serving as primary mentors to scholars should have strong records as researchers, including recent publications and successful competition for research support in the area of the proposed research training program.
- Please see RFA for full eligibility requirements for PDs/PIs, Mentors, and Trainees.

BUDGET AND PROJECT PERIOD:

- Award Budget:
  - NINDS intends to commit approximately $2,300,000 in FY 2024 to fund 1 award.
  - UCSF indirect cost policy will apply except for non-federal entities.
- Project Period: 5 years

NUMBER OF APPLICATIONS UCSF MAY SUBMIT: 1
APPLICATION TYPES ALLOWED: New

DUE DATES:

- **Internal**: 11:59 PM, Friday, June 16, 2023.
- PIs submit directly to the LSP; RMS does not get involved unless and until you are nominated.
- **Sponsor**: Wednesday, August 09, 2023.

Submit the attached Letter of Intent (LOI) by 11:59 PM, June 16, to: limitedsubmissions@ucsf.edu

To qualify for UCSF Limited Submissions Program opportunities, applicants must have a paid UCSF appointment either at the time of application or anticipated by the time of award.

The LSP is a selection process, not an award process. As the LSP is under significant time constraints, all reviewer feedback is optional. We encourage you to seek other avenues for proposal feedback.

For information on all current LSOs, please visit: http://rdo.ucsf.edu/limited-submission-program-lsp

Sent by Connie D’Aura on behalf of the Limited Submissions Program (LSP) within the Research Development Office (RDO).
