Internal Deadline: **NOON**, Wednesday, January 24, 2024

PLEASE FORWARD THIS ANNOUNCEMENT TO ALL APPROPRIATE FACULTY AND RESEARCH ADMINISTRATORS

WHAT: CDC RFA-IP-24-081 Public Health Epidemiology, Prevention and Control of Influenza and Other Respiratory Pathogens in China (<https://www.grants.gov/search-results-detail/350694>)

REQUEST FOR APPLICATIONS NUMBER: RFA-IP-24-081

PURPOSE:

- To support enhanced surveillance and applied research for influenza virus or other respiratory infections in humans and animals in China.
- To better define the global risk and to build the evidence for prevention and control of novel and seasonal avian and non-avian seasonal influenza viruses and other respiratory diseases in China.
- The scope of research performed will include, but will not be limited to, activities such as estimating the burden and cost of illness for groups at high risk for severe disease; monitoring vaccine uptake and efficacy; promoting vaccine programs for groups at high risk for severe influenza complications; and conducting surveillance for detection and control of novel and seasonal influenza viruses and other respiratory pathogens.
- Research activities for the prevention and control of novel and seasonal influenza viruses and other respiratory pathogens and pandemic preparedness activities will be aimed at preventing and controlling the spread and transmission within China and potentially to other countries, including the United States.

ELIGIBILITY:

- Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the PI is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply.

BUDGET AND PROJECT PERIOD:

- Award Budget: up to \$4,350,000 total costs
 - UCSF indirect cost policy will apply except for non-federal entities.
