

Table 2
Participating Faculty Members

Rationale

The information in Table 2 allows reviewers to assess the distribution of participating faculty by rank (junior vs. senior), by research interests, and by department or interdepartmental program. In addition, data on the mentoring records of faculty permit an evaluation of the experience of participating faculty in facilitating the progression of predoctorates and postdoctorates in their careers. The data concisely summarize information about the training faculty.

Table 2 must be completed and finalized, because data from Table 2 are used in Tables 3-8. Any changes to Table 2 can affect all training tables.
